Corals of Creativity

As another year with a fantastic staff flies by, we want to share with you just how proud we are of the dedicated staff members that work with our students each and every day. We praise their commitment to creating a safe and nurturing environment that engages students in high quality learning activities, supporting students as they confront new curriculum, and challenging students to achieve more than they believe to be possible.

We have much to celebrate with regards to the achievements of the students at DOES. Not only do our students perform well academically, they also succeed and shine in extracurricular areas. These successes are the result of the collaboration and collective work done by nearly 115 Dayton Oaks staff members with the support of our families and community members. We are so proud of the work being done each day within the building and the dedication shown by all of our teachers and support staff.

In our daily quest to be positive role models, our staff strives to inspire and encourage each child to learn, hope, dream, appreciate, create, innovate, integrate, excel, participate, and contribute. Working together, they focus on engaging children in learning, modeling great character, and motivating children to be life-long learners.

We would like to thank the staff of Dayton Oaks Elementary for their hard work, dedication, and love for children. We appreciate each of you and enjoy the professional relationships that have been developed and continue to develop throughout the year. Thank you for always putting the children first and making their elementary school years memorable and full of joy.
